THE ELECTRIC LIGHT WORKS.

Mr. Burges, as Chairman of the Electric Lighting Committee, moved the adoption of the report and dealt at length with the recommendation to the effect that they apply to the Local Government Board for power to borrow a further sum of £3,750 for the purpose of carrying out the works mentioned in the report. This sum, he explained, was required in order to make the works in an efficient condition, in fact, in Mr. Hammond's own words, "to put them on a first-class footing." He was aware of the necessity of spending any more money for very many years." He admitted that the lighting in the present and not been as high the horse-lighting had been perfect; but when the electric standards put up in Queen-square, for street lighting, perfect and lower, the light would be 2,000 candle power instead of

Mr. Burges, who seconded, in the course of his remarks said he hoped that the Press would be addressed in the future in a more courteous manner. Mr. Ricketts expressed very great surprise that he was known of those necessary works when the last proposition of the kind was carried out, and that at length with the recommendation that they apply to the Local Government Board for power to borrow a further sum of £3,750 for the purpose of carrying out the works mentioned in the report.
